VAT Reclaim Agents

AI Agents that handle VAT compliance and recovery for finance and tax teams

Most companies hand value-added tax (VAT) reclaim to business process outsourcing (BPO) firms or contingency-fee providers. Our VAT Agents do the work themselves in an always-on workflow, so you keep more of the VAT you recover.

Recover more VAT

Identify eligible VAT across expenses. Agents review every expense, so your team claims more recoverable VAT.

Reduce effort, stay compliant

Reduce manual reviews. Agents catch duplicate receipts and claims before the same VAT is recovered twice.

Pay less for reclaim

Outsourced providers keep up to a 30% cut. When Agents do the work, you keep everything they recover.

Key capabilities

Review every receipt

Agents read the supplier tax ID, rate, and VAT amount, without changing how employees submit expenses.

Decide treatment by line

Agents determine what is recoverable in full, partially, or not at all, by country.

Maintain the reasoning

Rules, evidence, and decisions are logged in plain English, so every action is audit-ready.

Deliver finance data

Agents send posting-ready and recovery-ready data to your team for the reclaim.

Recover VAT within weeks

Pre-built VAT Agent templates for each country simplify setup.

Turn your tax team's expertise into written procedures

AI Agents follow pre-built, country-specific, standard operating procedures (SOPs) that your tax team reviews and adjusts.

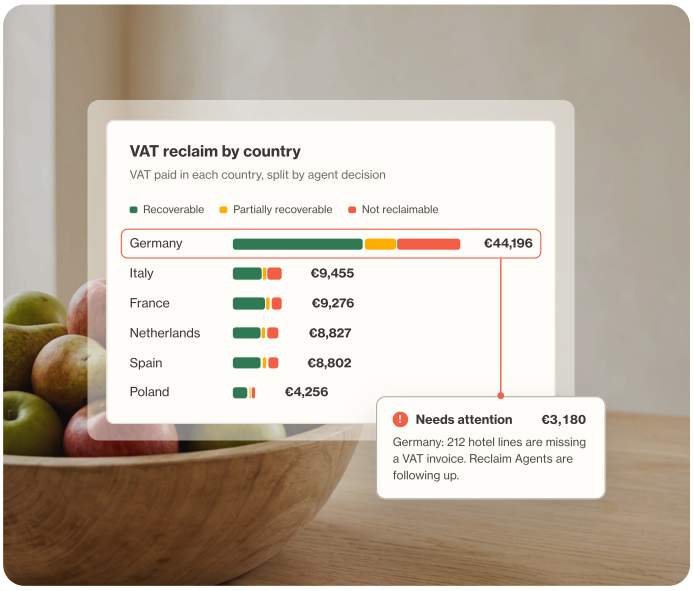

Verify every hotel expense line by line

Agents confirm the expense names of your legal entity and a valid supplier tax ID, then calculate the VAT you can reclaim.

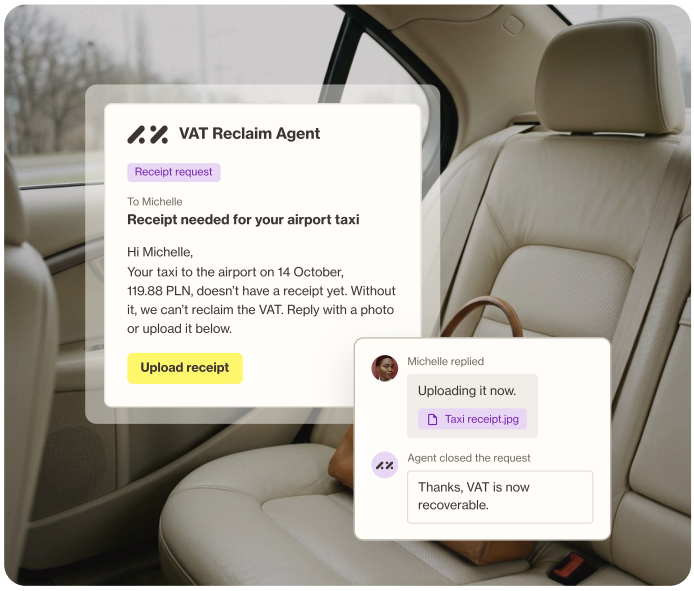

Handle domestic and cross-border travel

Agents apply each country's rules to every leg of a trip, catch cross-border details, and exclude 0% VAT-rated travel.

Verify VAT recovery across every country

AI Analytics shows how much tax your AI Agents found by country, how much you can recover, and which claims are ready to file.

Close documentation gaps before you file

When a receipt or invoice is missing, VAT Reclaim Agents email the employee or vendor and close the request once it arrives.
