AppZen Overview

The digital transformation solution finance teams need

Automatically eliminate unnecessary spend

Find errors, waste, and fraud prepayment, for measurable ROI.

Automate policy reviews and enforcement

Comply with corporate policy, contracts, and regulations.

Decrease finance team workload

Auto-approve low-risk spend to ensure on-time payments.

"**Airbus Harnessing AI in Bid to Save Millions on Finance Tasks**"

THE WALL STREET JOURNAL

" *We just kept coming back to the idea that it should be possible to automate complex finance policy and processes to reduce the burden on finance teams. As AI scientists, we had the opportunity to solve it – so we did.*"

KUNAL VERMA,
CTO AND CO-FOUNDER APPZEN

Why AppZen?

AppZen is the only AI-powered software built specifically for finance teams to automate manual finance processes, reduce expenditures, and gain on-demand insights into business spend trends.

$55B in spend audited to date

Audit coverage in 40+ countries

Our Products

Expense Audit

Audit 100% of your expenses instantly with powerful Mastermind AI software

- Improve finance decisions with insights and benchmarks to enhance your policies, audit processes, and reporting.

- Eliminate unnecessary spend by finding errors, waste, and fraud before you pay.

- Automate your unique policies, manage exceptions, and use data lookups to automate decision making.

- Decrease finance workloads by auto-approving low-risk spend, erase complexity, and paying employees quickly.

Autonomous AP

Autonomously process all invoices with an AI-powered AP inbox

- Improve AP efficiency up to 80% wth AI-driven entry, validation, PO matching, non-PO compliance, and accounting.

- Lower invoice cycle time to one day using the fastest invoice processing available, allowing you to take advantage of early payment discounts.

- Reduce duplicate and wasteful spend by up to 5% through prepayment audit and duplicate detection on invoices, T&E receipts, and P-Cards.

AppStore

Easily automate common expense policies

- Customers can take advantage of the only Finance AI AppStore to deliver customized AI models, built specifically for finance teams.

- Designed to solve unique and complex expense issues, these easy-to-install Apps eliminate unnecessary spend while ensuring corporate and regulatory compliance.

- Seamlessly integrate these custom-designed Apps into your existing Expense Audit solution without the need for costly development or a drain on IT resources
