

AppZen Spend Audit

Audit 100% of your spend on AP invoices, T&E, cards, and payment transactions

The only auditing solution that uses AI to read receipt images, Level 3 card data, and invoice images to detect duplicates, fraud, and compliance issues across your spend and ERP system

Find duplicates in < 30 minutes

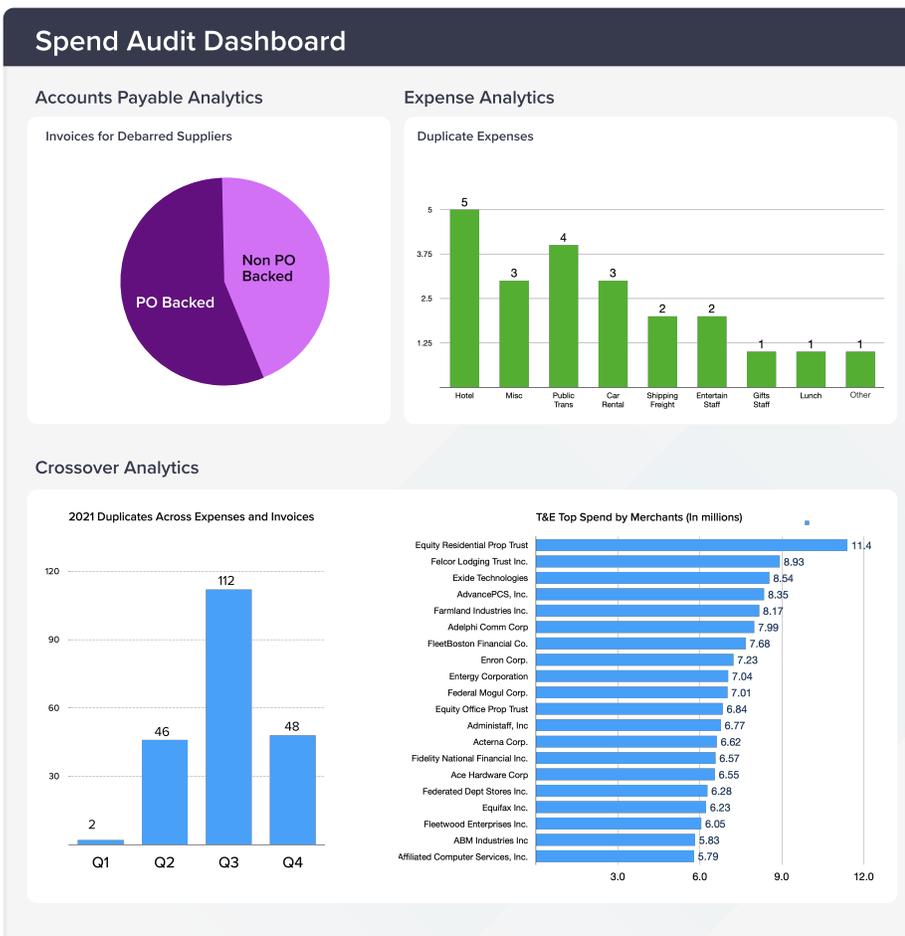

Identify potential duplicate spend across expense, invoices, and cards – prepayment

Detect 5-10x more high-risk transactions

Flag debarred suppliers and anomalous spend patterns

100% policy compliance

Ensure purchases and spend across all forms is compliant with policy

- Find duplicates in under 30 minutes across all your systems and transactions before payment occurs
- Detect unauthorized expenses and non-compliant spend that can only be found by reading invoice documents, receipt images, and card transactions
- Create a single view of P-Card, T&E, and AP spend across all systems and providers
- Detect potential fraud and misuse through spend anomaly detection
- Continuously monitor for debarred and sanctioned suppliers, individuals, and entities
- Detect unauthorized spend and ensure policy compliance, with purchases made through P-Cards and expense reports with managed suppliers
- Reduce auditor effort by 90% and issue-to-action time by 80%
- Gain comprehensive case management to route high-risk transactions across the company
- Out-of-the-box integrations with all major applications, as well as CSV-based integration and open API

AppZen AI is empowering over 1000 finance teams

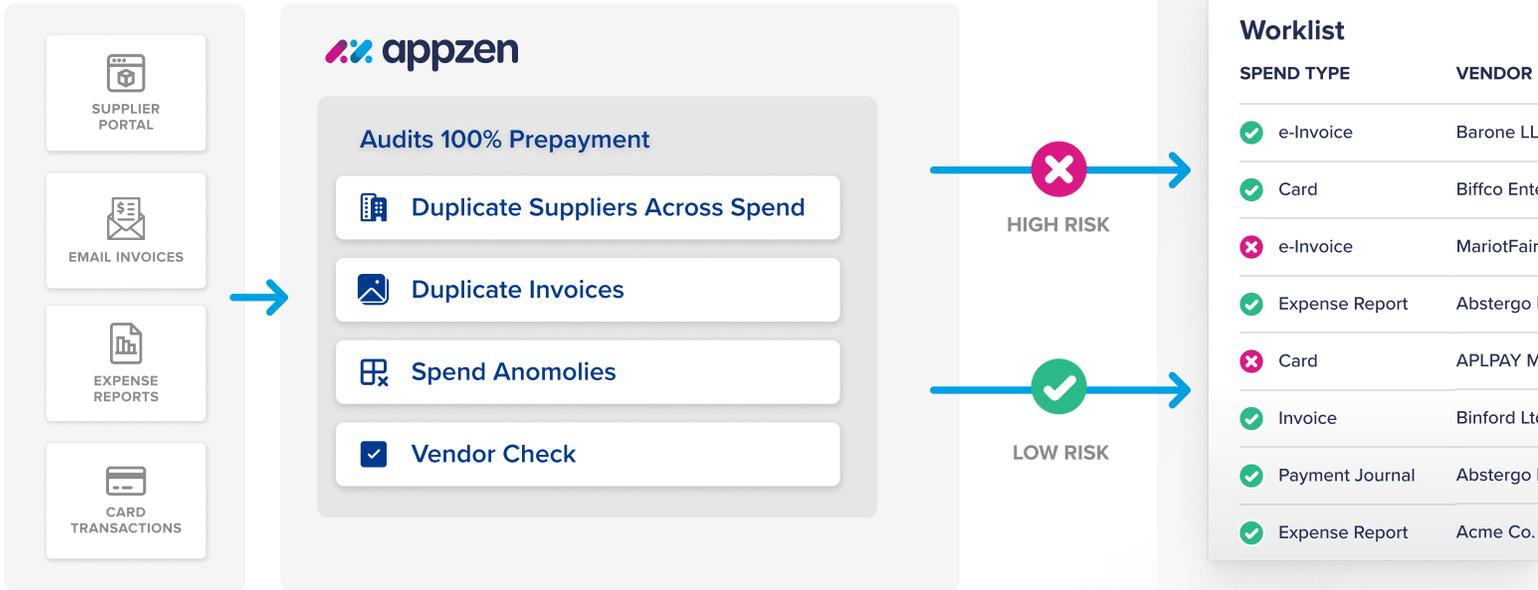

“With AppZen, we were able to identify immediate savings opportunities that we reinvested back into the business.”

GLOBAL FINANCE SOFTWARE COMPANY
HEAD OF THIRD PARTY RISK MANAGEMENT

Spend Audit - across ALL your transactions

Audit across your P2P, AP inbox, EMS, P-Cards, and ERP system

AI-powered Spend Audit: A 24x7 Finance Auditor

AI understanding of unstructured data

Acquires content and context understanding of both structured and unstructured data hiding inside invoice documents, receipt images, and even Level 3 card data

Real-time transaction analysis

AI models triangulate thousands of data points in real time for greater context and robust anomaly detection as soon as a transaction occurs

Mastermind AI not analytics

AI models detect duplicates and high-risk transactions using powerful computer vision and NLP technology trained over millions of documents from our thousands of customers

FCPA, SDN and HCP compliance

Ensures prepayment compliance with anti-bribery, FCPA, SDN, and Sunshine Act legislation

Custom AI models and workflows

Automates your organization's unique policies and SOPs with custom AI models and processing rules

Reporting and analytics

Self-serve and end-user analytics to review and action spend transactions

AppZen connects to all major finance systems and expense applications
